USB200

" Defeating the false perception that bigger headset means better quality, the USB200 is designed to be lightweight...unprecedented in the industry, the USB200's small speaker chambers house two bass-enhanced 40mm speakers, allowing users to truly enjoy top-end multimedia and music experiences.. "

USB200

Accutone®

USB200
Audio-enhanced USB Headset

Give the USB200 headset a try and you will immediately notice the surprising powerful sound output from this compact design. Unprecedented in the industry, the USB200's small speaker chambers house two bass-enhanced 40mm speakers, allowing users to truly enjoy top-end multimedia and music experiences.

The USB200 is also an excellent communication product. With its commercially-used noise-cancelling microphone, users can enjoy a level of crystal clear voice transmission even in the noisiest environment, making this headset the best product for internet chat as well as PC or console gaming.

Designed by Accutone®'s award-winning industrial designer, the USB200 is a sharp-looking headset with elegant curves; but most importantly the mechanical design is unmatched in terms of creating the best acoustic-friendly chambers and durable moving parts. Although the USB200 is designed for the consumer market, its reliability-standards are equal to the most rigid requirements of business users.

Other features include inline volume control with mute switch, universal plug-and-play connectivity supporting all Windows®, Macintosh® operating systems without the need of any drivers. It is also compatible with Skype™, Windows® Live Messenger, Yahoo® Messenger, Google® Talk and AOL® Instant Messenger.

Defeating the false perception that bigger headset means better quality, the USB200 is designed to be lightweight, compact and sharp-looking.
