ردیف	درسنامه پلاس	محتوای درسنامه پلاسهای رشته <u>ارتوپدی</u>
۱	۱	Rockwood and Wilkins' Fractures in Children EIGHTH EDITION Fractures and Dislocations of the Hand and Carpal Bones in Children Fractures of the Distal Radius and Ulna Diaphyseal Radius and Ulna Fractures Radial Neck and Olecranon Fractures Monteggia Fracture-Dislocation in Children Evaluation of Pediatric Distal Humeral Fractures Supracondylar Fractures of the Distal Humerus
۲	۲	T-Condylar Distal Humerus Fractures Dislocations of the Elbows, Medial Epicondylar Humerus Fractures Lateral Condylar and Capitellar Fractures of the Distal Humerus Distal Humeral Physeal, Medial Condyle, Lateral Epicondylar, and Other ncommon Elbow Fractures Humeral Shaft and Proximal Humerus, Shoulder Dislocation Clavicle and Scapula Fractures: Acromioclavicular and Sternoclavicular Injuries
۳	۳	Cervical Spine Injuries in Children Thoracolumbar Spine Fractures Pelvic and Acetabular Fractures Fractures and Traumatic Dislocations of the Hip in Children Femoral Shaft Fractures
۴	۴	Fractures of the Distal Femoral Physis Proximal Tibial Physeal Fractures Intra-Articular Injuries of the Knee Fractures of the Shaft of the Tibia and Fibula Ankle Fractures Fractures and Dislocations of the Foot
۵	۵	Epidemiology of Fractures in Children The Immature Skeleton Pain Management and Procedural Sedation for the Injured Child Cast and Splint Immobilization, Remodeling and Special Issues of Children's Fractures Management of the Multiply Injured Child Compartment Syndrome in Children Physeal Injuries and Growth Disturbances Pathologic Fractures The Orthopedic Recognition of Child Maltreatment

Rockwood and Green's <u>EIGHTH EDITION</u> Fractures in Adults	۶	۶
Pelvic Ring Fractures Acetabulum Fractures Hip Dislocations and Fractures of the Femoral Head Femoral Neck Fractures Intertrochanteric Fractures of the Hip Subtrochanteric Femur Fractures Femoral Shaft Fractures Distal Femur Fractures		
Patella Fractures and Extensor Mechanism Injuries Tibial Plateau Fractures Knee Dislocations Tibia and Fibula Shaft Fractures Pilon Fractures Ankle Fractures Fractures and Dislocations of the Talus Calcaneus Fractures Fractures and Dislocations of the Midfoot and Forefoot	۷	۷
Principles of Spine Trauma Care Cervical Spine Fractures and Dislocations Thoracolumbar Spine Fractures and Dislocations	۸	۸
Biomechanics of Fractures and Fracture Fixation Classification of Fractures The Epidemiology of Fractures Bone and Joint Healing	۹	۹
Biological and Biophysical Technologies for the Enhancement of Fracture Repair Principles of Nonoperative Fracture Treatment Principles of internal fixation Principles of External Fixation	۱۰	۱۰
Management of the Multiply Injured Patient Initial Management of Open Fractures Gunshot and Wartime Injuries Principles of Mangled Extremity Management	۱۱	۱۱
Post-Traumatic Stress Disorder Amputations Bone and Soft Tissue Reconstruction	۱۲	۱۲
Outcome Studies in Trauma Imaging Considerations in Orthopedic Trauma Skeletal Trauma Computer-Aided Orthopedic Surgery in Osteoporosis	۱۳	۱۳
