Accutone®

310

Professional Telephone Headset

The 310 series telephone headset is by far one of the most comfortable headsets on the market. It is also one of the most versatile solution available, with both noise-cancelling and transparent Soundtube models in monaural and binaural version.

Designed for ultimate comfort, this over-the-head corded headset is made from a light-weight plastic and features a single sided cord for binaural speakers. This single cord connection will give you the supreme freedom to work without getting tangled in a mess of wires. Further to ensuring comfort, the 310 headset has multiple adjustment points and a variety of removable rubber ear-pads for a complete customisable fit. Ensuring optimal usability and flexibility, the Soundtube model features a fully rotatable and extendable transparent Soundtube with a high quality microphone, whereas the noise-cancelling model highlights a high-grade aluminium mic boom with an excellent ability to filter out unwanted background sounds.

Utilizing a proprietary-design, the speakers of the 310 headset is fine tuned for voice-communication. It also contains an acoustic shock protection (ASP) circuitry, ensuring maximum sound protection against sudden burst of loud signals. The inclusion of a quick disconnection (QD) cable on this model, allows for easy call control. This headset is without a doubt an extremely stylish model, keeping its wearers looking slick and sharp further confirming that it is definitely the perfect solution to call centre operations.

inspiring people, inspiring change

Professional Telephone Headset

310 Series Key Features

- **Ultra-lightweight Headset.** Weighing about 30 grams (depending on the model), the 310 series is perhaps the lightest professional over-the-head headset in the market.
- **Comfortable Wearing.** Designed for all-day wearing, the headset is extremely comfortable, especially when using the removable rubber ear-pad extension.
- **Ear-pad Extension.** The default speaker size and high-grade leatherette cushion is perfect for convenience and less-intensive usage. With the rubber ear-pad extension, the headset becomes a comfortable solution for long conversations.
- **Professional Acoustic Performance.** Equipped with a proprietary 28mm voice-enhance speaker, and a choice of noise-cancelling aluminium boom or transparent Soundtube, call clarity for the 310 headset is superb.
- **Perfect Fit and Adjustments.** The fold-able mic boom is perfect for taking a break from long calls. Combined with multiple angles of adjustments in mic boom and headband, the 310 headset provides perfect fit to everyone.
- **QD and ASP.** Sound protection against sudden burst of incoming signal is protected by the Acoustic Shock Protection circuitry. Quick disconnecting cable provides convenience as well as flexibility in choosing direct cable connections.
