

Memmert VO Vacuum Ovens Continued

- Multiple overtemperature protection
- Safety glass door with inner bullet-proof glass and external anti-splinter screen
- Works calibration certificate at +160°C and 20 mbar pressure
- Supplied with 2 aluminium thermoshelves

Modules (optional):

- **Inert gas inlet:** programmable and digitally controlled inlet for inert gas with flow rate reduction
- **Premium:** comprises the inert gas inlet, one printer interface, extra connectors for thermoshelves, 1 (size 200), 2 (sizes 400/500), an additional thermoshelf (sizes 400/500) and a drip tray

Cooled vacuum oven VOcool also available (please contact customer services for further information). Further options and accessories are available on request. Additional equipment must be specified when ordering.

Accessories

Further options and accessories are available on request. Additional equipment must be specified when ordering.

Factory fitted accessories for Memmert Vacuum Ovens, please contact customer services prior to ordering for more information	
W5	Inert gas inlet: programmable and digitally controlled inlet for inert gas with flow rate reduction for VO200-VO500
T5	Premium module: comprises the inert gas inlet, one printer interface, extra connectors for thermoshelves, 1 (size 200), 2 (sizes 400/500), an additional thermoshelf (sizes 400/500) and a drip tray for VO200-VO500

Code	Alt Ref	Description	Price
OVE8394	B00741	Additional thermoshelf – aluminium eloxadised material W.-St. 3.3547 (ASTM B209) with integrated large-area heating including local temperature sensing (Pt100, 4-wire-circuit); individual overtemp. Protection for each shelf MLOP (Multi-Level-Overtemperature-Control) and calibration certificate for VO29	£489.00
OVE8396	B00743	Additional thermoshelf – aluminium eloxadised material W.-St. 3.3547 (ASTM B209) with integrated large-area heating including local temperature sensing (Pt100, 4-wire-circuit); individual overtemp. Protection for each shelf MLOP (Multi-Level-Overtemperature-Control) and calibration certificate for VO49	£565.00
OVE8398	B00744	Additional thermoshelf – aluminium eloxadised material W.-St. 3.3547 (ASTM B209) with integrated large-area heating including local temperature sensing (Pt100, 4-wire-circuit); individual overtemp. Protection for each shelf MLOP (Multi-Level-Overtemperature-Control) and calibration certificate for VO101	£664.00
OVE8400	B00733	Additional thermoshelf – stainless steel material 1.4404 (ASTM 316 L) for especially corrosive material with integrated large-area heating including local temperature sensing (Pt100, 4-wire-circuit); individual overtemp. Protection for each shelf MLOP (Multi-Level-Overtemperature-Control) and calibration certificate for VO29	£489.00
OVE8402	B00734	Additional thermoshelf – stainless steel material 1.4404 (ASTM 316 L) for especially corrosive material with integrated large-area heating including local temperature sensing (Pt100, 4-wire-circuit); individual overtemp. Protection for each shelf MLOP (Multi-Level-Overtemperature-Control) and calibration certificate for VO49	£565.00
OVE8404	B00735	Additional thermoshelf – stainless steel material 1.4404 (ASTM 316 L) for especially corrosive material with integrated large-area heating including local temperature sensing (Pt100, 4-wire-circuit); individual overtemp. Protection for each shelf MLOP (Multi-Level-Overtemperature-Control) and calibration certificate for VO101	£664.00
OVE8406	PMP29	Noise-insulated vacuum pump module with pump with antivibration metal plate at the bottom to accommodate the vacuum pump, incl. full-sight glass door. Socket, signal cable and connecting hose to the vacuum oven for VO29	£4009.00
OVE8408	PMP49	Noise-insulated vacuum pump module with pump with antivibration metal plate at the bottom to accommodate the vacuum pump, incl. full-sight glass door. Socket, signal cable and connecting hose to the vacuum oven for VO49	£5022.00
OVE8410	PMP101	Noise-insulated vacuum pump module with pump with antivibration metal plate at the bottom to accommodate the vacuum pump, incl. full-sight glass door. Socket, signal cable and connecting hose to the vacuum oven for VO101	£5154.00
