## FH950 Handheld Flow Meters

The FH950 Handheld Flow Meter is the perfect handheld solution for wastewater and environmental flow monitoring. Designed for use in both environmental and sewer/wastewater flow measurement scenarios—whether you’re profiling streams and rivers or providing redundant verification of wastewater flow data—even the smallest hassles have been addressed. And the result for you? Massive time savings. From the field to the office, the Hach FH950 increases your efficiency at every turn.

Part Number	Kit?	Probe Type	Cable Length	USD Price
FH950.11005	Yes	Velocity & Depth	6.5 ft	Contact Hach
FH950.11020	Yes	Velocity & Depth	20 ft	Contact Hach
FH950.11040	Yes	Velocity & Depth	40 ft	Contact Hach
FH950.10005	Yes	Velocity	6.5 ft	Contact Hach
FH950.10020	Yes	Velocity	20 ft	Contact Hach
FH950.10040	Yes	Velocity	40 ft	Contact Hach
