

Additional

Brand	GL Sciences
-------	-------------

Column description	Inertsil
--------------------	----------

Package specification	Silica
-----------------------	--------

Endcapping	no
------------	----

Inner diameter	4.6 mm
----------------	--------

mode	Normal Phase (NP)
------	-------------------

Particle Size	5.0 μm
---------------	-------------------

pH Range	2 - 7.5
----------	---------

Pore size	150 Å
-----------	-------

USP number	L3
------------	----

Length	5 mm
--------	------
