

Wile 65

Wile 65 is a basic tool for measuring moisture content in grains and seeds. It's best suited for performing rapid field measurements.

The W65 meter features a multi-language text display, and is available with an optional 95 cm temperature probe [W651L](#).

The set includes:

- Meter
- Carrying case with strap
- Grain measuring cup
- Battery 6F22, 9 V
- Operating manual.

If you need a particularly precise and reliable measurement result, you may also wish to consider the [Wile 200](#) moisture meter that measures, in addition to moisture content, test weight and temperature, or the crushing grain moisture meter [Wile 78](#).
