

Automatic Colony Counter

specification :

Technical Parameters:

Items	Parameters
Camera	Color high definition CCD
CCD resolution (Pixels)	3,000,000, 5,000,000, 8,000,000, three sizes optional
Counting software	Smart counter
Colony size resolution	>0.1mm
Colony color recognition	8 colors
Applicable method	Spread plate, pour plate, membrane filter, spiral plate

Automatic Colony Counter

Counting speed	300,less than 3 seconds
Light	Long life dual LCD light source
Working temperature	(0~50)°C
Material	ABS plastic
Petri dish	90mm and 55mm standard
Host dimension	290×260×380mm
Weight	3kg
Power supply	AC110~220V , 50Hz
Power	20W
