

Ricoh MP 2501SP

Innovation, value and versatility in one integrated design

Choose the RICOH[®] MP 2501SP for fast, dependable and affordable multifunction performance to streamline document-related workflow and lower your total cost of ownership. This space-saving and innovative MFP combines quality printing and copying on media up to 11" x 17", easy-to-use scanning capabilities, optional faxing and advanced security features. For small offices, use it as your primary system, or deploy it as an integral part of a Ricoh Managed Document Services (MDS) strategy and improve productivity for small workgroups throughout your organization.

Improve speed and efficiency

Enhance productivity and meet every demand with the Ricoh MP 2501SP. With a warm-up time of only 20 seconds or less and first-print times as fast as 6 seconds, it's ready to move as fast as you are. The compact and reliable system produces high-quality output at up to 25 pages per minute. Its full-front-access design allows users to connect to key functions effortlessly for easy operation and maintenance. Plus, with its powerful processing engine, the system can manage multiple copying, printing and scanning projects for continuous workflow.

User-friendly operations

The Ricoh MP 2501SP offers portable and Cloud-based applications to meet the evolving demands of today's mobile workforce and to share information throughout your organization. With a built-in USB/SD card slot on the control panel, workers can print PDF, TIFF and JPEG files right at the device without additional drivers or software.* Printing of e-mails, photos, web pages and documents can also be initiated from smartphones and tablets without software to download, drivers to install or cables to connect. *Requires HDD option.

Customize your workflows

The Ricoh MP 2501SP can be configured to accommodate your unique preferences to streamline copying, printing and scanning and minimize time spent navigating between jobs. Take advantage of the easy-to-view, tiltable 4.3-inch color control panel with a customizable home screen and icons for personalized, one-step shortcuts to common tasks. Choose from three available function keys to assign other pre-set tasks for even more convenience. Plus, the control panel includes a home screen button so users can return to the main menu instantly.

Reliable performance, every time, everywhere

Advanced security controls

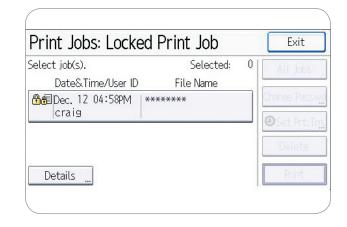

Protect critical information at every stage of the document lifecycle via state-of-the-art security features. With the optional hard disk drive (HDD) installed, the Ricoh MP 2501SP offers user password-protected and user-specific authentication to ensure only authorized users have access to key documents and system privileges. Print jobs can be stored at the device until users swipe an ID card or enter ID information at the control panel to release them. Unauthorized Copy Control prevents fraudulent duplication of sensitive documents. The DataOverwriteSecurity System (DOSS) ensures latent images stored on the internal HDD are protected. For even greater security, it includes AES 256-bit/SHA-2 enhanced encryption for advanced protection of your most critical data.

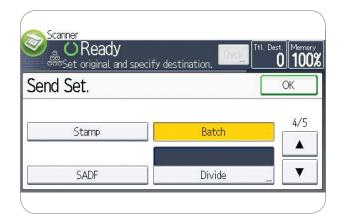

Combine capabilities in one compact system

Minimize your investment — not your performance — with the Ricoh MP 2501SP. With standard printing and copying, the versatile system offers 600 dpi image quality output along with advanced scanning features and optional fax capabilities in a compact design, making it ideal for everyday workflow in small offices and workgroups. Use enhanced batch scanning to scan one-sided and two-sided originals in a single job without generating unnecessary blank pages. With the fax option, users can route documents directly to e-mail accounts or shared folders and send faxes using the Internet instead of phone lines to reduce costs and enhance productivity. In addition, with the Remote Fax feature, an organization can designate one MP 2501SP with fax capability as the hub to send and receive documents from other networked Ricoh services-led MFPs without fax capabilities.

Distribution made easy

Minimize hardcopy storage while improving communications. The Ricoh MP 2501SP allows you to scan black-and-white and color documents and save them instantly to shared folders, computers, media cards and more at no additional cost. Unlike black-and-white only scanning of color documents, color scanning preserves the original look of the document, enabling the capture of highlights, annotations and other image details. Users can also look at thumbnail previews of the scanned documents to ensure quality and accuracy before they are distributed. With optional Ricoh GlobalScan NX software, users can create unique scanning workflows that automate distribution and minimize manual errors to streamline the way your office shares information.

Discover how convenient value can be

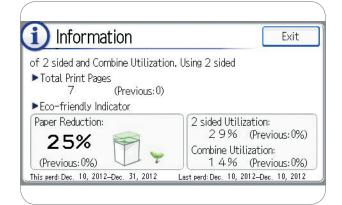

Handle any task - big or small

The Ricoh MP 2501SP is designed to deliver a wide range of documents on media up to 11" x 17". It comes standard with a 100-sheet capacity automatic reversing document feeder (ARDF) to handle multi-page originals for single- or two-sided copying and scanning. Optional paper banks expand the standard 600-sheet paper capacity to 1,600 sheets for longer print runs. The system includes a Document Server* to store up to 3,000 electronic documents at the device for convenient access and retrieval. Plus, an Auto Job Promotion* feature can skip specific error jobs and proceed to subsequent print jobs for uninterrupted throughput.

Impact your office - and the environment

Maximize energy efficiency while minimizing operating costs. The Ricoh MP 2501SP can save more electricity by shortening the time it takes to recover from its "1W" Sleep Mode to only 10 seconds. The system offers automatic duplexing for copying, faxing and printing to reduce paper consumption. An Eco-friendly Indicator is prominently displayed on the control panel to encourage users to be more environmentally responsible. It displays the print history for each user as well as the subsequent impact on the environment. With the Quota Setting* feature, administrators can take control of excessive print costs and set print quotas for individual users as well. "Requires HDD option.

Integrate seamlessly

Connectivity is easy in any shared-use office environment with a standard Gigabit Ethernet or USB 2.0 interface. Take advantage of Ricoh's Embedded Software Architecture and incorporate customized applications and software solutions to boost productivity and reduce operating costs. Incorporate innovative print driver deployment, automated meter collection, Cloud-based fleet reports and more. In addition, Web Image Monitor allows users or administrators to check status or configure settings of the device through any web browser.

Ricoh MP 2501SP shown with optional 1 Bin Tray BN2010, Paper Feed Unit PB2010 and Short Cabinet Type E.

- **Full-Color LCD Control Panel**: Adjust for optimal viewing and navigate from job to job easily via the intuitive, 4.3" tiltable control panel featuring a customizable home screen, a Home key, programmable shortcut icons, access to Cloud solutions and more.
- 2 USB/SD Card Slots and External Keyboard Support: Print directly from or scan to USB/SD cards and preview files before printing. An optional keyboard is also available for easier data entry.
- 3 100-Sheet Automatic Reversing Document Feeder: Handles multi-page and double-sided originals up to 11" x 17".
- **Bypass Tray**: Print on envelopes, labels and other unique paper stock through the 100-Sheet Bypass Tray.
- **5 Duplexing**: Minimize paper use and storage costs with automatic duplexing.

- 6 ID Copying: Save time and paper by copying both sides of an ID card or other small document onto a single sheet.
 7 Paper Trays (Standard): 250 sheets x 2 Trays +
- 100-Sheet Bypass Tray for a 600 sheet total capacity.
 8 Paper Banks (Optional): 500 sheets x 1 or 2 Trays plus

9 Hard Disk Drive (Optional): Job Shoets X + O Z Hays plus standard Paper Trays for a 1,600 sheet maximum capacity.
 9 Hard Disk Drive (Optional): Take advantage of Ricoh

MP 2501SP enhanced features and protect critical information at every stage of the document lifecycle. Enhanced features include Document Server, DOSS, Sample Print, Locked Print, Hold Print, Quota Setting/ Account Limits and more.

Short Cabinet Type E: Required with installation of either the Paper Feed Unit PB2010 or PB2000 to bring the device up to the optimal height.
