

Wiha PocketStar.

Press one button for the correct key.

The unique opening mechanism facilitates an easy selection of the desired key size.

The Wiha PocketStar fold out offers optimum handling and a wide variety of uses, which are expressed in the form of many practical details.

The ingenious opening mechanism facilitates the simple selection of the required key size from the glass-fibre-reinforced holder.

Wiha solved an important demand of fold-out users: When turning a key into working position only this one moves. The remaining keys stay where they are.

The various working positions offer universal use:

- In the 180° position, the PocketStar is used as a screwdriver.
- 270° stop limit for using the tool as practical lever for high torques.
- Any position can be set between 90° and 270° for a variety of different work applications.

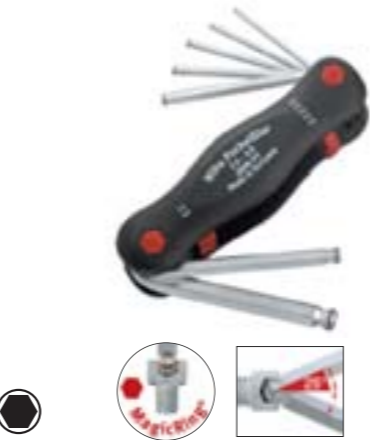

The 270° stop limit when working on applications with higher safety requirements puts an end to trapped fingers.

All it takes is three swift actions and you have an effective screwdriver: Pull it out of the pouch, press on the button and set the desired blade to 180° as well as 270°.

Wiha PocketStar.

- Innovative opening mechanism for simple selection of the desired key size
- Particular suitable for use as screwdriver when the blade axis is set at 180° or as practical lever with blade in 270° position
- Ergonomic, glass-fibre-reinforced holder guarantees the easy transfer of even the highest torques
- Can be rotated by any angle between 270° and 90° to save time when working on applications where space is tight
- 270° stop limit for higher safety puts an end to trapped fingers
- Colour-coding system for different drives and dimensional systems delivers great clarity when using several PocketStars
- Covered hex key axes prevents catching on clothes

For Allen screws (metric).

**369R P7** Ball end hex fold out holder PocketStar. With MagicRing®, in large PocketStar, 7 pcs.

Blade: Chrome-vanadium steel, through hardened, electro-plated.

Handle: Ergonomic, reinforced fibreglass housing, 120 mm long.

Application: Practical fold out holder for hex screws in the workplace or on the job. Insert screws into or remove from boreholes, especially in difficult to access areas.

Extra: Robust casing with eject button for simple and easy key selection. MagicRing® made from spring steel holds all standard screws tight at various angles (available from 3 mm). The ball end enables the user to work at angles up to 25°.

# Wiha Mini PocketStar.

The smallest blade at the push of a button.

The unique opening mechanism facilitates an easy selection of the desired key size.

Who hasn't spent ages looking for the small SW 0.9 hex key or for other small keys?

Wiha has developed an extremely smart solution to solve exactly this problem: the Mini PocketStar, a small practical helper that is an absolute must in the toolbox of every service and customer-service engineer.

Regardless of whether replacing a proximity switch or pneumatic control unit, or whether adjusting the sensitivity of a light barrier. With the Mini PocketStar, all keys are within reach.

Small but effective. The Mini PocketStar from Wiha is the smart helper for service engineers and for DIY use.

The 180° stop limit when working on applications with higher safety requirements puts an end to trapped fingers.

### Wiha Mini PocketStar.

- All small keys are held together in the Mini PocketStar. Not a single blade is lost
- Each of the 8 blades can be used as screwdriver when set at 180° and as tool with lever arm when set at 90°
- The glass-fibre-reinforced polyamide holder ensures that the Mini PocketStar withstands every stress unscathed
- Of course, the smallest PocketStar also has the same special functions as the "big" PocketStars

## Mixed sets.

**SB 351 PM8X** Hex fold out holder Mini PocketStar. With additional blades, 8 pcs. Blister packed.

Blade: Chrome-vanadium steel, through hardened, electro-plated.  
Handle: Ergonomic, reinforced fibreglass housing, 55 mm long.  
Application: Practical fold out holder for mini keys so they no longer get lost. Particularly suitable for use with the smallest screws, e.g. when tightening screws or for the accurate setting of sensors.  
Extra: Robust casing with eject button for simple and easy key selection. Hanging loop with matching snap-hook.

# Wiha ComfortGrip T-handle.

Soft zones for maximum working comfort.

Side blade with through blade.

The new Wiha T-handle with through blade for additional side blade features soft zones for the comfortable transmission of high torques.

Due to their ergonomic design, these handles are comfortable to hold. Fewer pressure points and less strain on the user mean that these tools are a pleasure to use.

When using the side blade, a supporting hand on the handle produces additional stability, which prevents the blade from suddenly slipping out of the screw head. This is better for both blade and screw.

The hole in the handle can be used for shop storage.

No screw can resist. The powerful Wiha ComfortGrip is quick and comfortable to use and even loosens screws that have been glued into position.

A tool that is a pleasure to use. Using the side blade for even greater torque, a supporting hand stabilises the handle and prevents the blade from slipping.

Black soft zones in the handle for comfortable working.

Chrome-plated blade for optimum corrosion protection.

### Wiha ComfortGrip T-handle.

- The integrated side blade is particularly useful when loosening or tightening screws that are rusted-in, glued into position or particularly hard to move
- The through blade withstands even the highest stresses
- Distinctive soft zones on the ergonomic handle for the comfortable transmission of even high torques
- Handle-size concept with three handle shapes designed for maximum ease of use and for applying just the right amount of torque
- The new colour-coding system for the handles couldn't be clearer:  
**Red:** metric hex blades  
**Green:** TORX® profiles
- Matt chrome-plated blades guarantee optimum corrosion protection and a long service life for the whole blade
